

Term 2 2018

Mosaic workshops

These workshops are designed for the beginner where no previous art experience is necessary. Students will create their own 3 dimensional hand-made tiles, using clay and then learn the art of painting and decorating using under-glazes. Hann-Made provides studio tools and equipment in the cost of the workshop. There is a huge range of designs to choose from with a wide selection of coloured tiles to suit all students. Look on our website gallery to see some of the murals made by Cheryl and her students.

Starting Dates

Students may begin at any time. Just ask Cheryl for dates to suit.

3D Mosaic Mural

Make and decorate your own hand made tiles, lay, glue, cut, nip and grout commercial tiles to produce a work of art. Choose from our range of designs: All pieces are suitable for outdoors.

Fish, Topiary Tree, Funky Flowers,
